

Our Story.

We're different—in a good way.

Based in Idaho (not Iowa), we're different. We don't just offer background checks and grow potatoes in our free time. We offer a new experience, transforming the way organizations hire today.

Coded from the heart—We've got patented tech like those Silicon Valley guys, but ours is built from the heart with your needs in mind. Our background screening solutions are built to empower you, keep your workplaces safe, and fulfill job seekers' dream. **We only build what we believe in.**

Clients First—that's what we live by at Verified First. While our tech solutions are highly intuitive, we make sure you're always well-taken care of. With our FCRA-certified support team entirely stateside, our clients' questions, concerns, and needs, are always put first.

Nothing brings more satisfaction than signing on an excited new hire, and **it's our privilege to help you do that.**

Let's build something great, together.

What our Clients are saying:

"My small business is growing, and I love having an easy, seamless way to ensure my new hires have clear background checks. Verified First is affordable and straightforward to use. And a plus – their team is always friendly, helpful, and accessible when I have questions. I highly recommend Verified First!"
